*When you become so taken  
by your dreams,*

*When you become so taken  
with the story and the details  
of your dreams,*

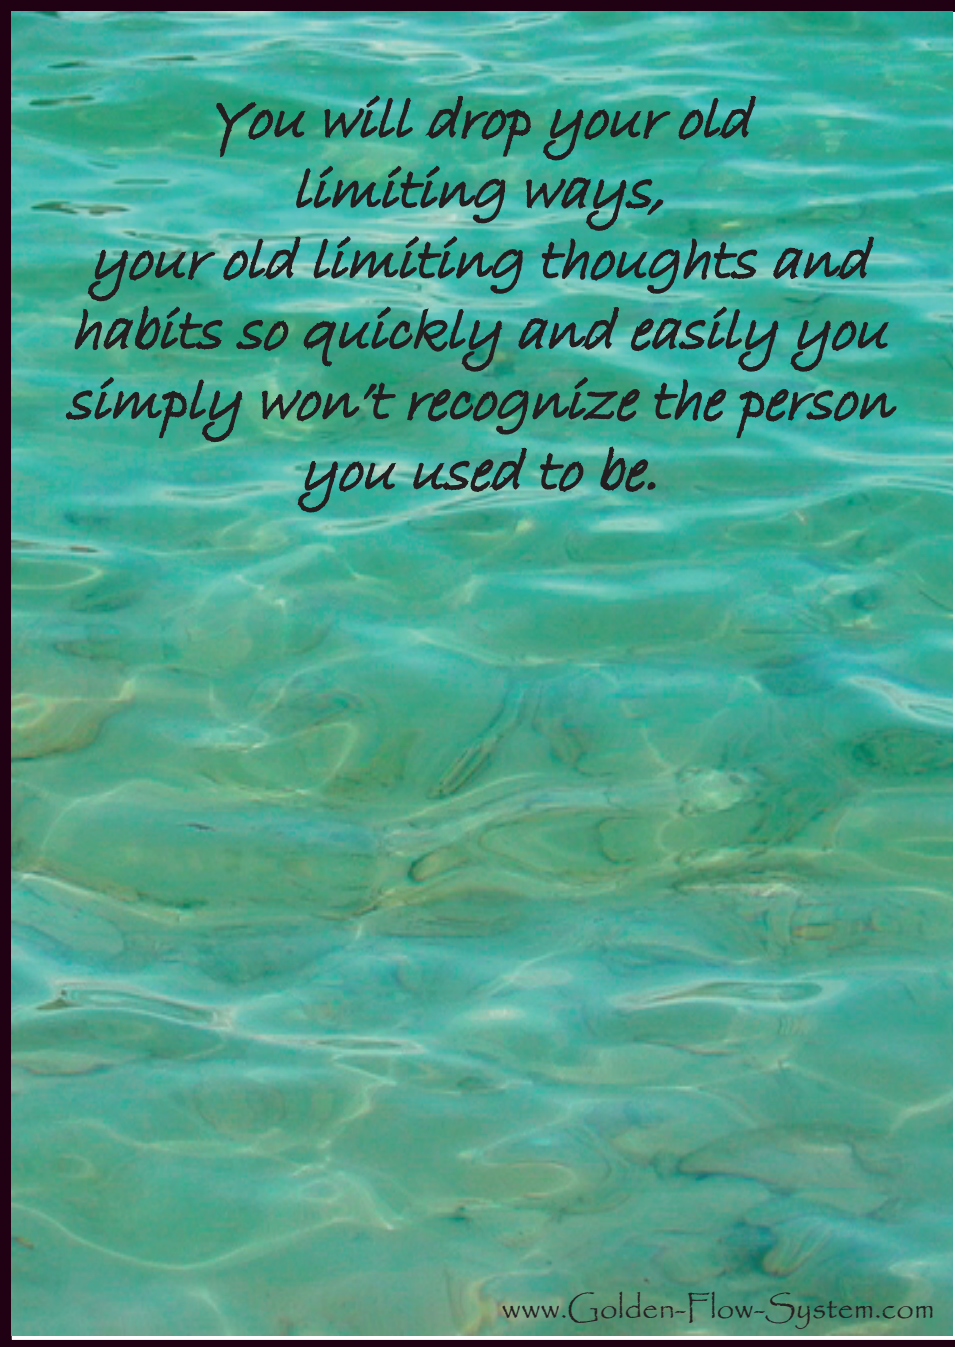

[www.GoldenFlowSystem.com](http://www.GoldenFlowSystem.com)

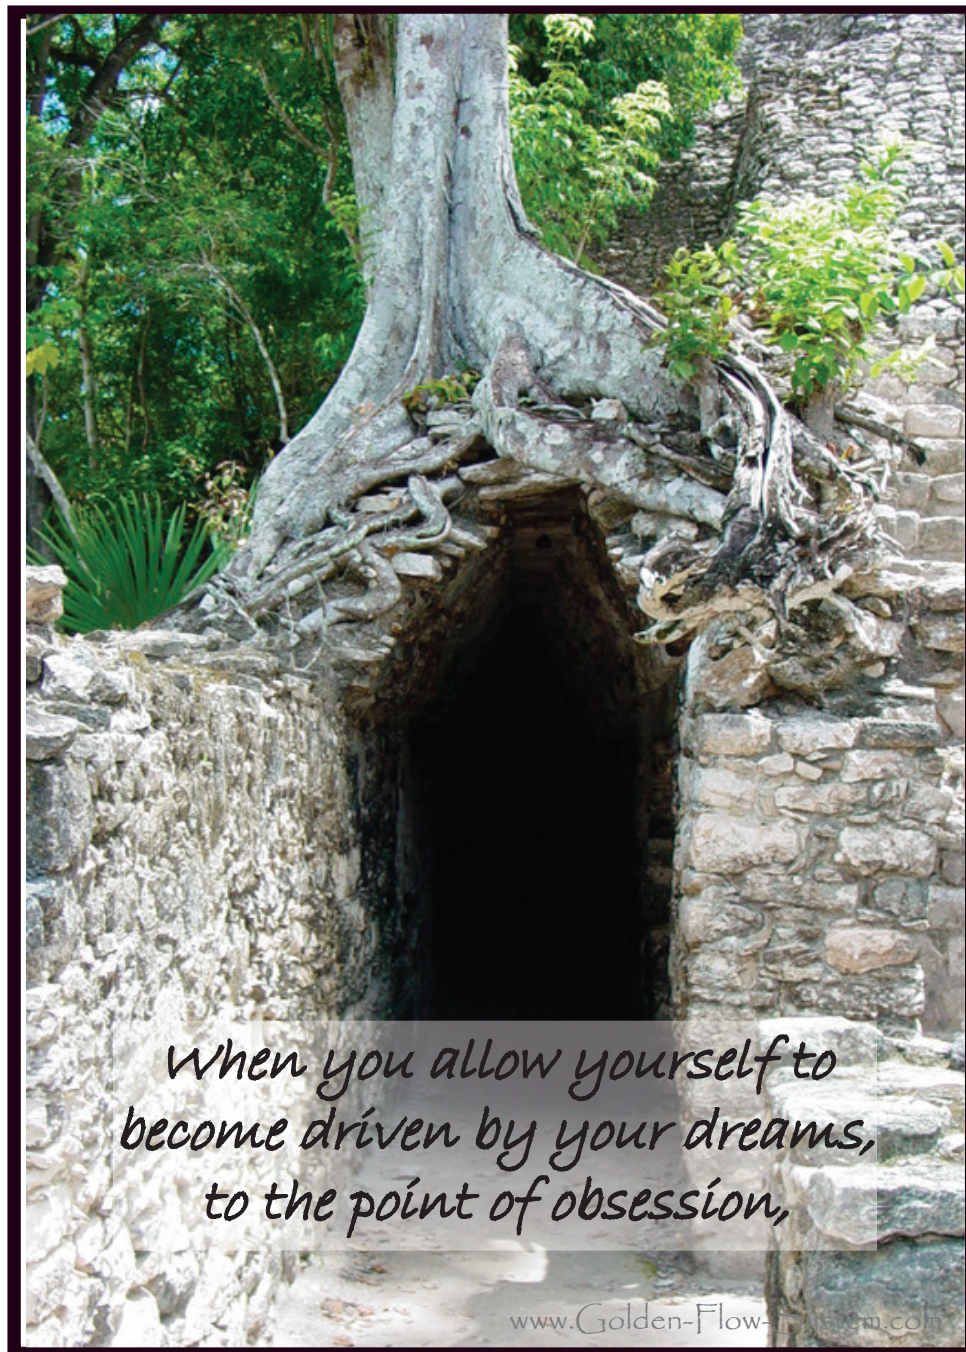

*Then a point will come in which  
your old limited self,  
the self that you used to  
think you were,  
will simply no longer be.*

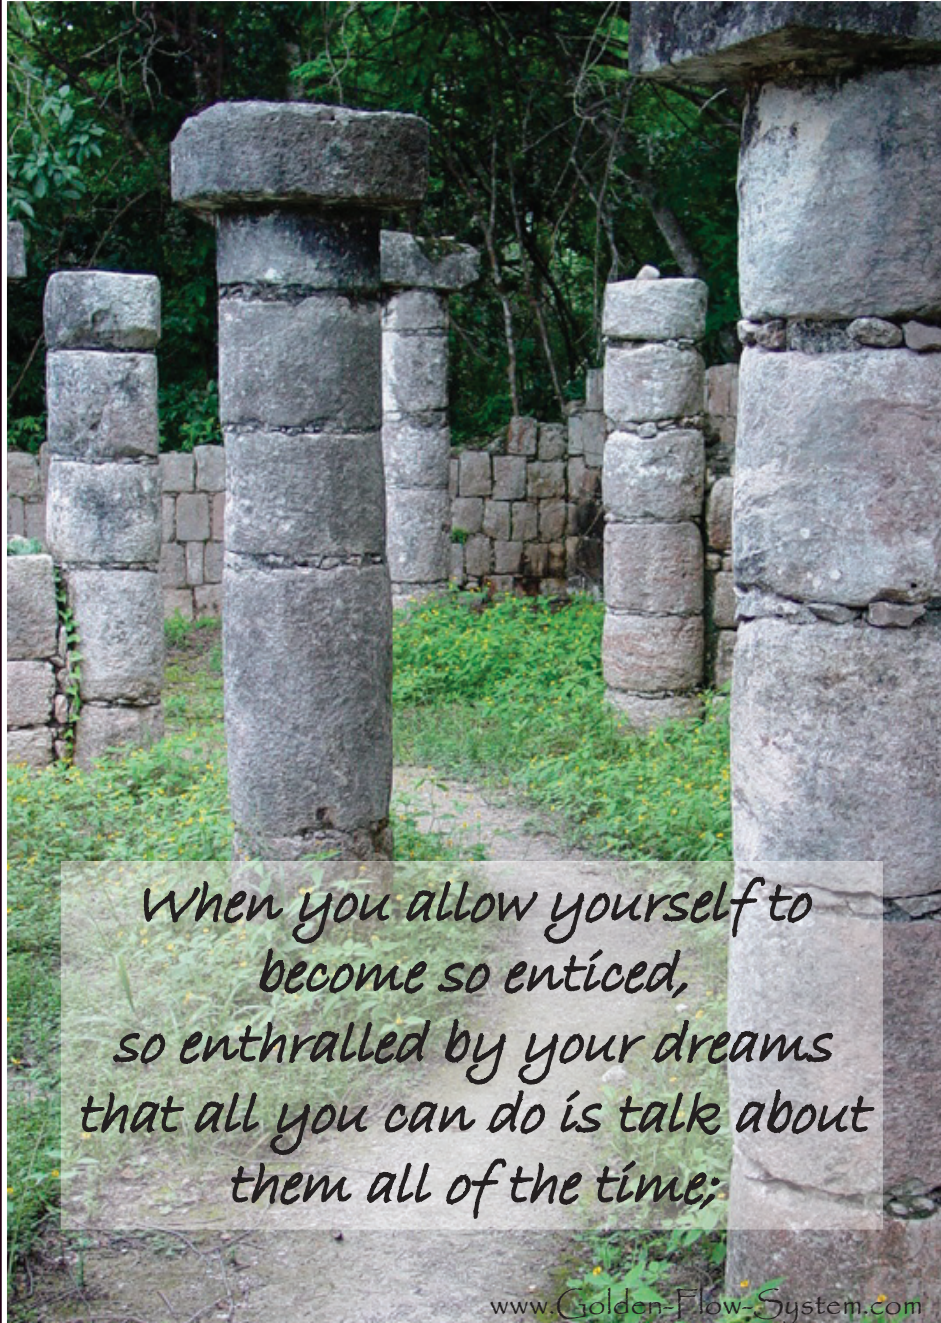

*You will drop your old  
limiting ways,  
your old limiting thoughts and  
habits so quickly and easily you  
simply won't recognize the person  
you used to be.*

*When you allow yourself to  
become driven by your dreams,  
to the point of obsession,*

[www.Golden-Flow-System.com](http://www.Golden-Flow-System.com)

*When you allow yourself to  
become so enticed,  
so enthralled by your dreams  
that all you can do is talk about  
them all of the time;*

[www.Golden-Flow-System.com](http://www.Golden-Flow-System.com)

*When you will have allowed your  
dreams to grow and expand more  
and more until they are such an  
active energy in your life that  
they are your life,*

*You will have allowed your Source  
Energy to flow its light through.*

*As you feed your dreams they  
develop themselves like a movie.  
When you are told of a movie in  
one sentence, you only get  
a faint sense of the movie.*

*You only have a hint, of the  
character and the journey they  
take. Until you see the movie and  
thus experience the gleam in the  
character's eyes,*

[www.Golden-Flow-System.com](http://www.Golden-Flow-System.com)

*The passion that awaits to come  
forward, the gifts and love the  
character shares, only then will  
you fall in love.*

*You will fall in love with the character and their friends; with the challenges the character will overcome, with the conviction with which the character will overcome their challenges.*

*You will fall in love with the  
moment in which this character  
awakens to their own light, their  
own desire,*

[www.Golden-Flow-System.com](http://www.Golden-Flow-System.com)

*that moment in  
which the character makes a  
shift and turns into a hero,  
into who they truly are.*

*This is what your desires do for you.  
They help you come back into who  
you truly are, your Golden Flow.*

*Your desires guide you back to  
knowing and becoming who you truly  
are, your Source.*

[www.Golden-Flow-System.com](http://www.Golden-Flow-System.com)

*Every dream, every wish, every hope  
and every desire is an  
urging to bring you back home.*

*And this is why, a persona who  
fulfills their desires becomes more  
and more developed.*

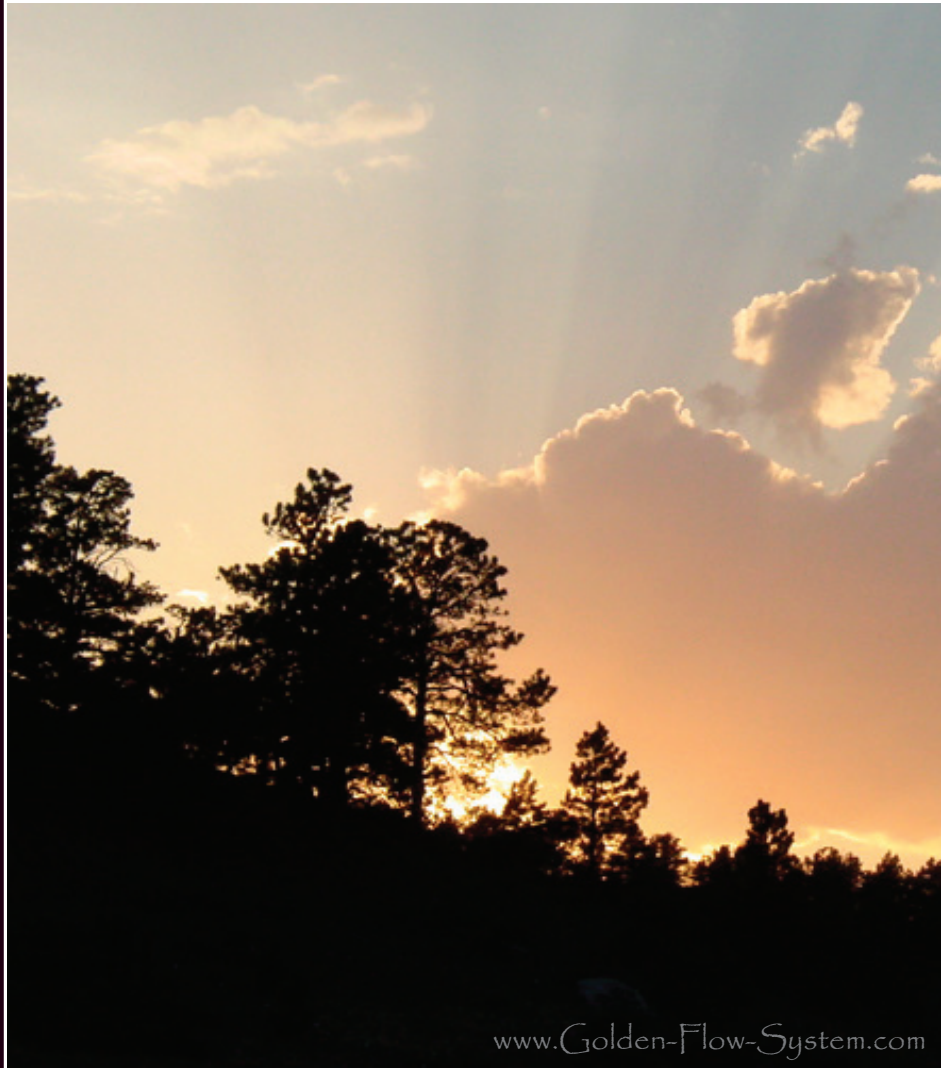

*Why a persona who fulfills their  
desires seems to be stronger, more  
capable and more connected...  
because they are.*

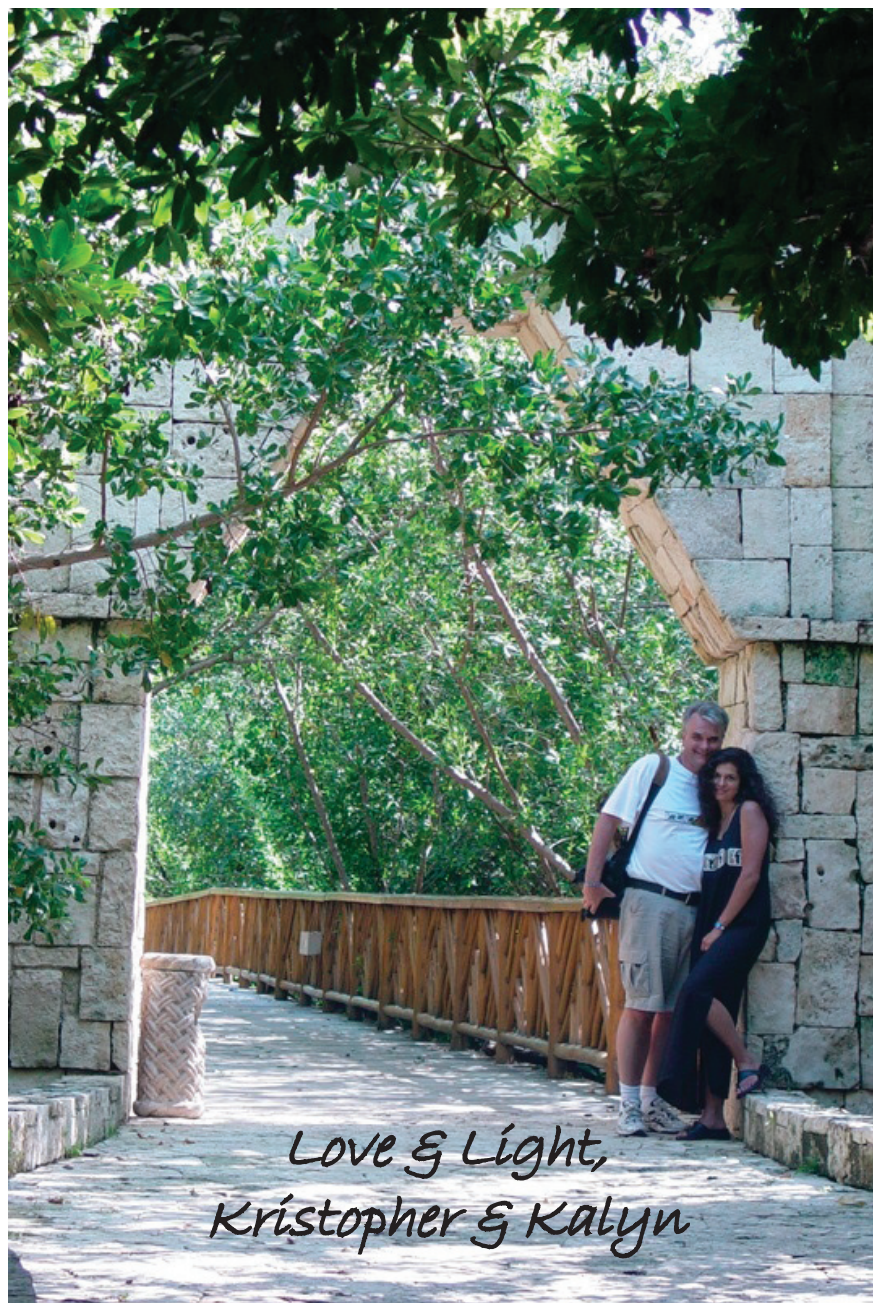

[www.Golden-Flow-System.com](http://www.Golden-Flow-System.com)

*Because one strand at a time,  
one aspect of your persona at a time,  
you return to your Source Self.*
